

2-1/2 PVC/Vtf Dphgm Valve Flg

RG2793VT025

Details

This full-featured PVC valve is engineered to provide accurate throttling control and shutoff for industrial, chemical and water treatment applications. Weirtype design eliminates entrapped fluids in valve and is excellent for handling liquids with suspended solids, viscous fluids and slurries. Available with a variety of Diaphragm material options. Easy-grip, high-impact polypropylene handwheel. Built-in, clear-view position indicator. Stainless steel external hardware.

Specifications

Manufacturer	Spears
Fitting Size	2-1/2
