

Solo Battery Powered Backpack Sprayer - 5 gal. RSL416-LI

Details

Powered by an 11 V Lithium-Ion rechargeable battery, this Solo 416-Li backpack sprayer requires no pumping, produces no emissions and is whisper quiet. Recharge time for the battery is 5.5 hours, and spray time on a fully-charged battery is 6 hours on the low setting and 3.7 hours on the high setting. The two-speed low setting will spray up to 36 psi, and the high setting sprays up to 62 psi. Pressure and spraying volume can be adjusted using the high/low toggle switch. Includes translucent 5-gallon formula tank and a padded shoulder straps with waist belt. Features fitted pressure gauge with protective guard, a telescopic 36 inch carbon fiber wand with 60 inch hose, and large tank opening for easy filling and cleaning. Battery charger and flat spray nozzle included. 5 Gal. Battery and charger included.
